

## Guidelines and application form Assemblage Centre for Creative Arts – Research Grant Scheme

### Overview

Assemblage offers research awards on the basis of merit to active creative and performing arts researchers and others in the College. This year, Assemblage is offering five grants in total – two seed grants of \$3500, two 'next level' grants of \$3500 and one 'Special Initiative' grant dedicated to exploring cutting-edge research and practice in the Ambisonic Sound Studio.

Funding is available for research projects, including:

- Research Projects that lead to high-quality creative research
- ECR Research Projects that lead to high quality creative research
- Interdisciplinary creative works that are embedded in a research project

Applicants are advised to discuss their ideas with the Assemblage Director/s before submitting their formal application. Applications are to be sent to [assemblage@flinders.edu.au](mailto:assemblage@flinders.edu.au) by **COB 5pm on the closing date.**

### Purpose

Assemblage offers research awards on the basis of merit to active creative arts researchers in the College. The objective of this funding is to enhance the College of Humanities, Arts and Social Sciences research performance and profile in areas of strength in creative arts through new research that **requires one year of funding** only.

### Seed Funding Grants

The objective of the seed grant funding is to enhance the College of Humanities, Arts and Social Sciences research performance and profile creative and performing arts through new research (practiced-based and traditional).

### Next-Level Grant

The objective of the next level grant is to enable previous Assemblage grant recipients to further develop their research project towards a higher-level research outcome (such as a Category 1 grant or a significant category 2 grant application). Funds may be used to support the writing and development of the grant application. Funds can also be put towards outputs which strengthen track-record for a grant application or used for a pilot project/case study for a grant application.

### Eligibility

At least one applicant must be in a balanced or research-only academic role or must be a post-doctoral fellow appointed for one or more years at 0.4 FTE or above within the College. Additional applicants may include other Flinders University academic staff, HDR students, or staff with adjunct or full academic status, including Emeritus Professors, Honorary Visiting Fellows and Honorary Research Fellows. If there are applicants from outside of the CHASS, that College must also contribute to funding the proposed project. Under special circumstances, co-applicants from outside Flinders University may be considered, particularly if there are important underlying strategic reasons for their inclusion. In this case, co-applicants from outside Flinders University may also be required to contribute to funding the proposed project. Applicants are expected to discuss their application with Assemblage's Director or Deputy Director.

# Assemblage – Research Grant Scheme

### Funding and Conditions

Within the Assemblage Research Grant Scheme funding is available for:

- Research Projects involving one or more HASS researchers that will lead to high-quality creative research and, whenever possible, future grant success (to a maximum of \$3,500).
- Internal events at the university, college, or Assemblage level or jointly-sponsored external events featuring HASS creative arts researchers.
- Creative development projects that will lead to high quality creative outputs.
- Significant public presentations of creative work by one or more CHASS creative arts researchers.

NOTE: At the end of the grant period any unspent funds will be automatically returned to the College Research budget for reallocation.

**NB. Regarding travel, please be aware of the relevant COVID19 restrictions and consider these in developing your applications. Outbound interstate travel for CHASS staff requires a Flinsafe form to be submitted online.**

### Application and Assessment

Applications and assessment will take place once a year with dates announced in VPED updates.

Applications will be assessed against the following assessment criteria:

- Quality of research proposal and budget justification
- Track record of the applicant(s) relative to opportunity
- Potential for high-quality research outputs
- Potential for innovation and/or impact and engagement
- Potential to lead to external research funding
- Alignment with Assemblage Strategic Plan and University Research Strategy
- Fostering teams and capacity building (e.g. include ECRs and mid-career staff with senior researchers)
- Interdisciplinarity is encouraged.

Each application will be reviewed by the Assemblage Management Committee. The committee will then make a recommendation to the HASS Dean of Research for final approval. Application form and attachments must be combined into one PDF document to be sent via email submission to [assemblage@flinders.edu.au](mailto:assemblage@flinders.edu.au) by 5pm on the closing date.

### Reporting Requirements

Grant recipients are required to submit a 500-word report to the Assemblage Centre for Creative Arts at the conclusion of their research project. A template for this report can be found at the end of this document. The report should be emailed to [assemblage@flinders.edu.au](mailto:assemblage@flinders.edu.au) within two months of the end date of the research project.
