
MyWorklife

Workday Support Network

For All University Staff & Affiliates
May 2020
staff.flinders.edu.au/myworklife

Workday Support Network is an informal group of people within different portfolio areas & colleges, who will assist their colleagues with navigating and using Workday. They will also help connect the local colleagues to the best support information and redirect colleagues to additional support as required while reinforcing self-help options

Members of the Workday Support Network are not expected to:

- initiate any business processes on behalf of others
- be responsible for delivering training to colleagues
- provide P&C advice to colleagues or act in any way as a proxy for P&C services

You are encouraged to reach out to them for informal assistance or as the first point of contact to understand Workday better and for assistance with navigating the system.
